

Thank S. Fahn (Neurological Institute of New York, Columbia University) and M. Nakagawa (Kyoto Prefectural University of Medicine) for their critical reading of the manuscript. This study was partly supported by a Grant-in-Aid for Scientific Research on Priority Areas (C) "Medical Genome Science"; by Center of Excellence grant 16101J-1 from the Japanese Ministry of Education, Science, Culture, and Sports; and by Grant-in-Aid for Dystonia Research from the National Center of Neurology and Psychiatry, Japan.
